

# TRANSPORTATION & SUPPLY CHAIN MANAGEMENT

Associate of Applied Science

## The Transportation and Supply Chain Management Program

prepares students for jobs in the transportation and supply chain management industries. Emphasis is placed on supply chain logistics, commercial, freight, and maritime transportation systems.

The Transportation and Supply Chain Management program provides a pathway for students to fill a workforce gap in the transportation, distribution, maritime and supply chain management industries. Students will have the options to obtain academic experience and industry credentials for their careers in the pivotal Maritime, Transportation, and Supply Chain industries.

## Endless Career Options

Courses in the program qualify students to transfer to a Bachelor of Science degree program in transportation or civil engineering at a four-year College or university.
