DETERMINATION OF RESIDENCE

There are two tuition rates, one for State of Maryland residents and one for out-of-state and foreign non-immigrant residents. A person is considered a State resident who has been domiciled in Maryland for not less than three consecutive months prior to enrollment. Domicile means a person's permanent place of residence where physical presence and possessions are maintained and where the person intends to remain indefinitely. Additionally, the domicile of any student who received more than one-half of his or her financial support from others within the last 12 months is the domicile of the person contributing the greatest portion of support, without regard to whether the parties are related by blood or marriage and without regard to student's current address. A student under the age of 18 years of age may claim his/her residence as that of his/her parents or legal guardians. **Some non-immigrant visa types may not be eligible for in-state tuition depending upon their United States Citizenship and Immigration Services (USCIS) visa status. For more information, contact the Office of Admissions, or refer to the BCCC website: www.bccc.edu.**

RESIDENT AFFIDAVIT

I hereby certify that I have lived or will have lived in the state of Maryland for at least three months prior to the first day of classes and would be able to substantiate this claim with appropriate documentation (see Evidence of Maryland Residency indicated in Part 2). I also understand that false statement may be grounds for my dismissal from the college and/or retroactive adjustment of tuition.
