A pound sign (#) denotes any cohort/subcohort with five or fewer students. Outcomes for these cohorts are not disclosed in order to protect privacy, in accordance with federal guidelines.

Note: Not every student who enters BCCC full-time can continue studying full-time over subsequent semesters because of household and employment obligations. Many students need developmental courses in order to prepare for and succeed in college-level courses.

## II. Retention Rates

During the fall semester of 2016, 320 students entered BCCC as full-time students for the first-time and were seeking a degree or certificate. They did not attend another postsecondary institution prior to attending BCCC. Their outcomes were as follows.

- 32 (10%) completed their BCCC programs by August 31, 2018.
- 24 (8%) last attended a four-year institution of higher education without graduating from BCCC.
- 68 (21%) were still enrolled at BCCC.
- 23 (7%) last attended a two-year institution of higher education without graduating from BCCC.

### III. Employment Rates

Through data sharing arrangements with the Maryland State Department of Education; Maryland Higher Education Commission; and Department of Labor, Licensing, and Regulation; and the Maryland Longitudinal Data System Center, BCCC graduates' employment data are collected and reported annually for many occupational programs via the Perkins Program Quality Index (PQI). Records for graduates of the selected programs are compared with payroll records to determine how many are employed in any field, whether full-time or part-time. The PQI reported that 75% of BCCC's FY 2017 graduates from the programs shown were employed six months after graduation. The statewide average was 70%

Program	Graduates FY 2017	% Employed 6 months after graduation
Fashion Design	12	0%
Dental Hygienist	12	0%
Physical Therapist Assistant	16	69%
Respiratory Care	12	0%
Registered Nursing	40	93%
